■ First Quarter/Last Quarter Moon  
■ New/Full Moon

*Spring and Neap tides are created by the relationship between the Earth and the Moon during each lunar month. Spring tides occur shortly after New and Full Moon, and Neap tides occur shortly after the Moon is in its First and Third Quarter.*

"Level" always refers to the minimum diving qualification required for the dive trip  
 Please let Keith or Carron on [KCUnderwater@hotmail.com](mailto:KCUnderwater@hotmail.com) know of any corrections  
 This calendar is updated if you provide us with the information :)
