

## **Examples of risks**

Alcohol  
Boat and diver(s) separation  
Cliff/wall diving  
Cold  
Computer failure  
Currents  
Depth  
Drift diving  
Dry suit overheating  
Engine failure  
Entanglement  
Environmental damage  
Equipment failure  
Explosives  
Munitions  
Fast ascent  
Fatigue  
Fishing lines  
High visibility  
Horseplay  
Insect bites or sting  
Lack of food/water  
Lack of sleep  
Lobster pots  
Low daylight level  
Low/No visibility  
Medication  
Missed stops  
New location  
Night dive  
No working O2 kit available  
Not being dive-fit  
Odd number of divers  
Other boats in dive site location  
Other water users in dive site location  
Over familiarity with location  
Panicking Student  
Passing road traffic  
Public interference  
Radio failure  
Running out of air  
Sea conditions  
Shipping  
Stings  
Sunlight  
Taking people beyond their experience level.  
Training exercise  
Transport of equipment  
Unavailability of changing facilities  
Unavailability of toilets  
Unsuitable entry point  
Unsuitable exit point  
Weather conditions  
Wreck diving  
Wreck Penetration
